

St Katherine's School

09 October 2019

Dear Parent / Carer

The Science department will be hosting a Tea with a Scientist event on Thursday 7 November from 3:30-4:30pm. We would like to offer your child the opportunity to attend this event. This is an excellent opportunity for your child to be inspired by meeting professionals working in many different fields. We have a variety of people attending, who all have science qualifications and have used these qualifications to gain access to a variety of careers. Careers represented will include: zoology, radiology, refrigerant recycling engineering, Royal Navy engineering and Nuclear Physics.

The aim of this event is for students to find out more about the careers science qualifications can lead to. Students will be able to ask questions about career pathways and science qualifications. The event is open to all students.

The event will take place in the school canteen with drinks and biscuits available. Science teachers will be present during the event. Please let me know if your child is planning to attend this event by emailing pearce@skdrive.org

Yours sincerely

Stephanie Pearce
